# Phase 9: Reports, Dashboards, and Security Review

Overview

Phase 9 focuses on creating insightful reports and dashboards for the Smart Education Portal and performing a security review to ensure data protection and proper access control.
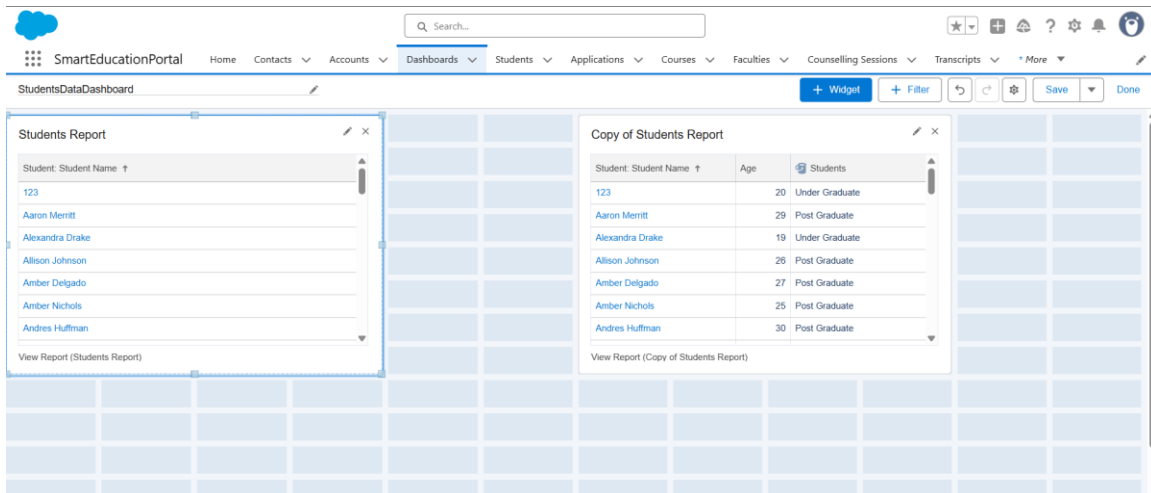

Key Tasks and Enhancements

1. Reports Creation

- Designed custom reports for Applications, Enrollments, and Faculty Performance.
- Reports include metrics like:

2. Dashboards Design

- Built interactive dashboards to visualize report data.
- Dashboards include charts, tables
- Added filters for dynamic data analysis (e.g., course).

3. Security Review

- Reviewed Profiles and Permission Sets to ensure proper access control.
- Verified object-level, field-level, and record-level security.
- Ensured external integrations comply with Remote Site Settings.
- Tested login and access for Admissions Officers, Faculty, Students, and Parents.

Tools & Technologies Used

• Salesforce Reports & Dashboards – Visualization and analytics
• Profiles & Permission Sets – Security configuration
• Remote Site Settings – Secure API access
• Lightning App Builder – Dashboard placement and layout
